ACF is an international non-governmental, private, apolitical, non-religious and non-profit organization created in 1979. Its goal is to combat hunger and dangerous situations that threaten men, women and children. Currently 500 expats and more than 5,000 employees are working for ACF in more than forty-six countries working in projects concerning four areas of focus: nutrition, health, food security and water and sanitation.

ACF-Spain (ACF-E) is looking for an **Expert CMAM** for intervention in the South Lebanon.

**GENERAL OBJECTIVES**

- Ensure appropriate identification of CMAM implementing sites.
- Support the implementation and monitoring of the CMAM programme in Bekaa Valley, Lebanon.
- Ensure program consistency and good collaboration amongst the nutrition and mental health team and others ACF teams for comprehensive care of the program beneficiaries.
- Will be responsible to participate to the planning, the conception, the starting, the follow-up, the evaluation of the project and the hand over in close cooperation with the Nutrition Head of Project.

**SPECIFIC OBJECTIVES**

- Assess and define sites for the implementation of 2 nutrition centre (OTP and SFP) in Bekaa Valley.
- Assess and define location for implementation of screening activities in Bekaa.
- Assess and produce a report on the main challenges and opportunities for ACF to develop CMAM activities in Lebanon.
- Identify the most appropriate CMAM implementing strategy in order to build a strong nutritional treatment and referral system.
- Collect and analyse CMAM data, ensure the quality of the data collected. Propose readjustment of the program based on the results and the context.
- Define and set up appropriate referral system for malnourish children in coordination with the Head of Project.
- To take part in the new orientation of the CMAM component in short term if necessary and to the definition of the actions in medium and long term.
- Participation to the writing of new proposals of projects related to CMAM.
- Organise the recruitment of the staff of the program related to CMAM activities.
- Organise supervision on regular basis for Nutrition Field Officer and Outreach Worker.
- Liaise with Donors and authorities and take contacts with the local health system in order to promote integration and further development of complementary activities.
- Coordinate with the finance and logistics departments regarding procurement and compliance with mission procedures.

**PROFILE:**

- MA degree in Nutrition or Nurse or Doctor, experience in training.
- Specialist in emergency response and in post-crisis monitoring.
- CMAM experience and desirable knowledge on IYCF in emergency.
- At least 3 years of experience within humanitarian organisations and in the technical components mentioned above.
- Skills about need assessments procedures and set up of CMAM project.
- Competencies in assessing and develop training program according to the team needs.
- Previous experience in Middle-East is an asset.
- Good capacity of analysis. Competences in training.
- Good communications skills
- Good capacity to work independently and as a part of a cross-cultural team.
- Autonomy, creativity, adaptability and flexibility.
- English (compulsory working language, spoken, read and written); Spanish (desirable); Arabic (useful).
- Windows domain and compulsory expertise in Excel.
- Mobility national and international.
